night, at the Academy of Music excites a great deal of interest in the world of art and fashion, and from present Indications the house will be unusually brilliant. Miss Kellogg's Marguerite is one of the most charming of our operatic memories. If the young lady's friends may be believed—and why may they not 1—she has improved a great deal since she left us, and comes back with her voice ripened, her method polished, and her powers generally developed. We hope it may yet be found possible to present our New York favorite in Opera; but meanwhile these "operatic concerts"—whatever that may mean—are not to be despised.

THE DRAMA.

EARTH AND MAN.

Pref. Rohde's remarkable geological exhibition attracted another good house last night. The lecturer, who, on Thersday evening, "marred a curious tale in the telling of it," has been superseded by a new speaker, who did much more justice, last night, both to the subject and the discourse. The reader will notice that Mr. Charies Rosenberg lectured only on the occasion of the prioate view-last Tuesday. Prof. Robde will not give a matinée to-day, as previously contemplated; but "Earth and Man" may be seen every night, and ought to be seen by everybody. DEAMATIC NOTES.

The Great European Circus is about to repeat its successes of last Spring in this city. It will open for a short season on Monday night, at the corner of Thirty-fourth-st, and Broadway. The company engaged is an excellent one, not only in size, but nightly. The management claims to have a finer troupe than has ever been organized in the world. One thing is cortain: they have the great rider, Mr. James Robinson, who, with his son Charence, can always render the Circus attractive. The minouncement enumerates a number of clever people, among whom are Lucille Watson, Mile. Elise Morgetta, the Bell, Buislay, and Sherweed families. On Monday, the "Europeans" are to make a grand parade.

THE GRALDWIN-WORMALD PRIZE-FIGHT.

AREEST OF O'BALDWIN.

On Thursday evening, Inspector Walling reecived information that the long deferred fight between Ned O'Baldwin, the Irish giant, and Joe Wormald, the Ned O'Baldwin, the Irish giant, and Joe wormand, the English prize-fighter, was to come off in a room in this city. It was not known exactly where the fight was to take place, and accordingly instructions were sent to all the police captains to be on the lookout for the men. Capt. Mills received information that a number of sporting men had congregated in Jake Roome's low dance hall. Roundsman Pickett and a platoon of men were sent there, and on the entrance of the officers the crowd dispersed. At 9 o'clock a. m., yesterday. Wormald was seen to enter a close carriage, which was driven off toward the North River. It was given out then that the fight was to come off at Mark Magnire's hotel, in Harlem Lane, but it is believed that this was done to mislead the authorities, and that it was really intended that the fight should take on at Mark Magdire shole, in farther lade, our is not beved that this was done to mislead the authorities, and that it was really intended that the fight should take place at Sheepshead Bay, L. I. If such was the intention, the arrest of O'Ealdwin and of his trainer. Mike O'Connor, as they were leaving Lovejoy's Hotel at 3 a. m. yesterday, prevented the consummation. The parties arrested were taken to Poince Headquarters during the day, before Justice Dowling at the Tombs, where an affidavit was made against them by Capt. John S. Young of the detective squad. O'Ealdwin admitted that he had been matched to fight Wormaid in Pennsylvania, for the sum of \$2,000, but said that he considered the ficht off, as Wormaid had failed to put in an appearance at the hour stipulated in the articles of agreement. The magistrate deceded to hold O'Ealdwin and his trainer to bail in \$1,000 cach, to keep the peace for one year. Felix Larkin, of No. 321 West-st, became surely for the men, who were then released from arrest.

FREEMASONRY IN THE EAST.

Robert Morris, esq., delivered a lecture last evening, at the Cooper Institute, on the subject of Freemasonry in Syria and Palestine. He said that he had been sent to the East, by the Masons of this country, for four objects: 1st. To examine into the Freemasonry of the Eastern nations; 2d. To obtain information of the orders kindred to the Masons, such as the Knights of St. John; 3d. To visit the places renowned in the traditions of Masonry—Tyre, Jerusalem, and others; 4th. To make collections of specimens, relies, &c. His remarks on these topics were very interesting, not only to Masons, but to the zeneral public. At Smyria he found eight Masonic Lodges, which included among their members the foreign-Consois of most of the nations not. Boman Catholic, and nearly all the Turkish dignitaries. At Ephesus he attended a Masonic Picnic. At Beyrout he found the only ledge in Palestine. Among its members is the Pasha of all the territory from Asia Minor to Egyst. Mr. Morris found the Fusha a very gentlemanly, Intelligent, and friendly man, willing to give him the fallest aid in the prosecution of his enterprise. At Damaseus he found its Masons, among them the renowned Abd el Kadir, formerly Sultan of the Arab race of North Africa, where he entried on a most destructive war with the French for three years. Mr. Morris was most kindly received by this flery old warrfor, who gave him the symbolical kisses on the gight and left cheeks. Throughout Syria and Palestine there is an intense prejudice among the lower classes against Free Masoury, but the high officers of the Turkish Gevernment, and the few educated and intelligent men which are to be found there, are well disposed toward the Order. Nowhere in the world, Mr. Morris says, is there Freemasonry in Syria and Palestine. He said that he

Sabsequently, charges were made before Justice Milis against him, and last evening he was arrested by the police and held to bail in \$1,000 to await the action of the Grand Jury.... Another gross violation of the law in regard to fraudulent voting has been made public. On the day of the election, as reported in The Thibtus the day sabsequently, two mon, named Chements and Sode, the latter Captain of the Teath Ward Jackson Club, were taken into castody by the publice, the former charged with fraudulent voting, and the latter with having employed Clements to do this work. Last evening Clements made affidavit, in which he charges that he was accosted near his residence by Sode, who persuaded him to enter a carriage, and, having been driven to the Teath Ward polls, he voted the Democratic ticket and received \$1 for this service. He was then taken to the second district polis of the same Ward and again voted, receiving another \$1. He had previously voted in the Ninth Ward. There are other parties yet to be arrested on similar charges, but as the warrants have not yet been served, their hames are withheld. Frederick C. Hannagan, Secretary of the Newark Ice

SUICIDE OF A GERMAN ACTRESS.

Two weeks ago Mr. A. von Zarbini, stage manager at the Apollo Theater, St. Louis, died. His wife. Rosina, was inconsolable. On Sunday evening, the 8th inst, she told Mr. Kurth that she was very thirsty, and would like to go out for a few minutes. She was allowed to go. In a little time she returned and sauk into Mr. K.'s arms, dying of prussic acid. The deceased was an attractive young woman and an actress of considerable merit. On Friday she ordered two tombstones to be placed over the graves of herself and husband. With that half qualist solemnity sometimes connected with resolutions in which sanity or insanity mingle, she prepared her room for her death. She draped it with crape and otherwise decorated the walls and arranged suitably the clothes in which she wished to be buried. She also left a letter, in which she expressed her determination to commit suicide, saying that she intended to take prussic acid—that hife was unendurable now that her husband was gone, and that she was going to join him.
